Moodle 2.3 – five new features I'm excited about ☆
do Join the dots de mark.drechsler

"I'm excited!"

Those who know me well should also know I'm a cynical old bugger.

When Moodle 2.0 came out, I was more concerned with working through the at times nir consequences of the 2.x file management paradigm and condemning myself for nearly explaining it to all and sundry (lets face it, its not the most exciting thing in the world to be con... expert on – why couldn't I have been an expert in something cool like being 'open' – I'd be famous by the

100+ people liked this

The more eagle-eyed Reader users have noticed a few tweaks being made to Reader's mobile interface over the past few days:

- We've brought over a few more features from the desktop version of Reader.

QR Code Reader Apps #QRCode
I have tried a number of Apps to read/scan QR Codes (all bar one tested were free) and I have to say that there isn't one that stands out above the rest, so I'll review the ones I end up using more than others below. QR Code Reader and Scanner (iPhone/iPad/iPod): Scan QR Codes you find on your travels, in
