

Curriculum Vitae

Carmen Avram is a Romanian artist who recently earned her BA International from University of Leeds and L'ecole Superieure d'Art de Grenoble. She has exhibited in several countries, England, France, Austria and Germany and she is delighted to be an artist in residency in all these countries.

Carmen lives in Portugal for almost one year now and she has meticulously prepared an exhibition inspired by the cultures of many different places that she intimately experienced including Portuguese culture.

She draws her inspiration from foreign cultures including her own and let herself be spoken by whatever is next in store as a new experience that will enrich her perceptions and mark her work.

Carmen uses found objects, mixed media and glass as a metaphor to exercise our imagination. Wherever she travels and resides she is drawn by customs and storytelling of the new place she inhabits and blends it into her work with her own memories.
