

ZOTERO

Maria do Rosário Duarte
Novembro 2016

No final, deverá ser capaz de ...

- Instalar o programa
- Definir preferências,
- Importar referências, documentos ou páginas
- Integrá-lo com os processadores de texto
- Identificar e utilizar plenamente todas as funções

Zotero

- O **Zotero** é um software livre (em regime de open source), disponibilizado pelo web browser Mozilla Firefox, que permite recolher, gerir e citar fontes bibliográficas.
- Existe o **Zotero** para o browser **Mozilla Firefox** e o **Zotero Standalone** para o **Chrome**, para **Safari** e se o desejarmos também para **Firefox**
- O **Zotero** interage com os recursos on-line, permitindo a captura automática de informação para citação a partir de páginas Web.
- É integrável com o **Microsoft Word**, o **Open Office** o **Neo Office** e o **Libre Office** através de plugins.
- É passível de ser usado com o WordPress e outros softwares de blogs.
- Permite o armazenamento de páginas HTML, de “PDF’s”, de vídeos, fotografias, documentos word ou excel inclusivé e outros
- Permite anotações (embora não diretamente no PDF) e/ou a inserção de notas ou comentários
- Pode ser usado off-line (desde que instalado o plugin para MS Word ou Open Office).

Zotero Standalone - Instalação

Zotero Standalone

Zotero Standalone runs as a separate application and plugs into your choice of browser.

 **Download Zotero for Windows**

Next, add one of the following browser extensions:

 **Chrome**  **Safari**  **Firefox**

Plugins for Word and LibreOffice are included

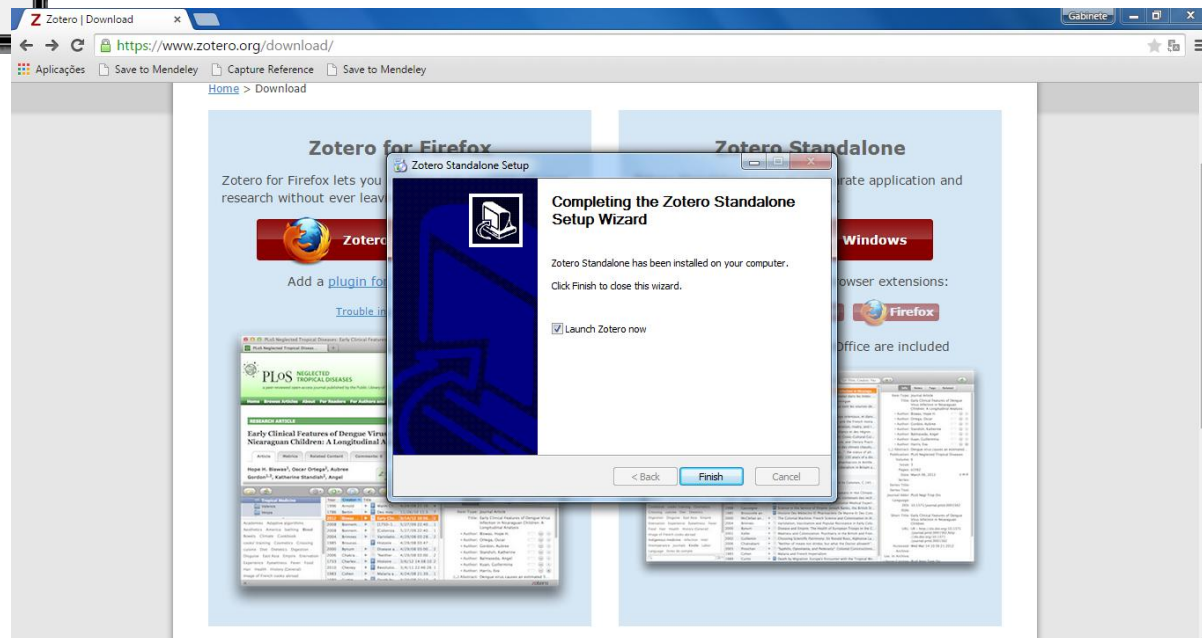

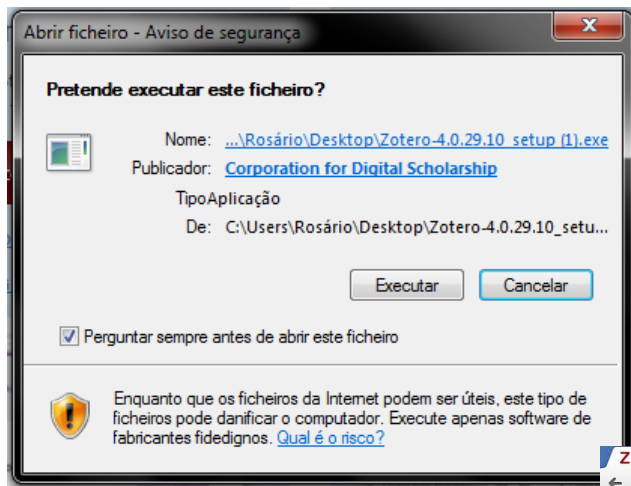

Após dar o comando de instalação do Zotero standalone é feito o download de um ficheiro executável.

Em simultâneo (se estamos a usar o Chrome abre automaticamente uma janela para instalarmos os conectores no browser de modo a ser possível ao Zotero capturar automaticamente referências das plataformas online.

Zotero Standalone - Instalação

Zotero Standalone - Instalação

The image shows a screenshot of a Windows desktop. In the background, a web browser window displays the Zotero website's download page. The page has two main sections: "Zotero for Firefox" and "Zotero Standalone". The "Zotero Standalone" section is highlighted, showing a "Windows" button and a list of browser extensions. A "Zotero Standalone Setup" dialog box is overlaid on the website. The dialog box has a blue header and a white body. It contains the following text: "Completing the Zotero Standalone Setup Wizard", "Zotero Standalone has been installed on your computer.", "Click Finish to close this wizard.", and a checked checkbox for "Launch Zotero now". At the bottom of the dialog box are three buttons: "< Back", "Finish", and "Cancel". The Windows taskbar is visible at the bottom, showing the Start button, Internet Explorer, Google Chrome, and Zotero icons. The system tray in the bottom right corner shows the time as 11:43 and the date as 18-05-2015.

Zotero Standalone Setup

Completing the Zotero Standalone Setup Wizard

Zotero Standalone has been installed on your computer.

Click Finish to close this wizard.

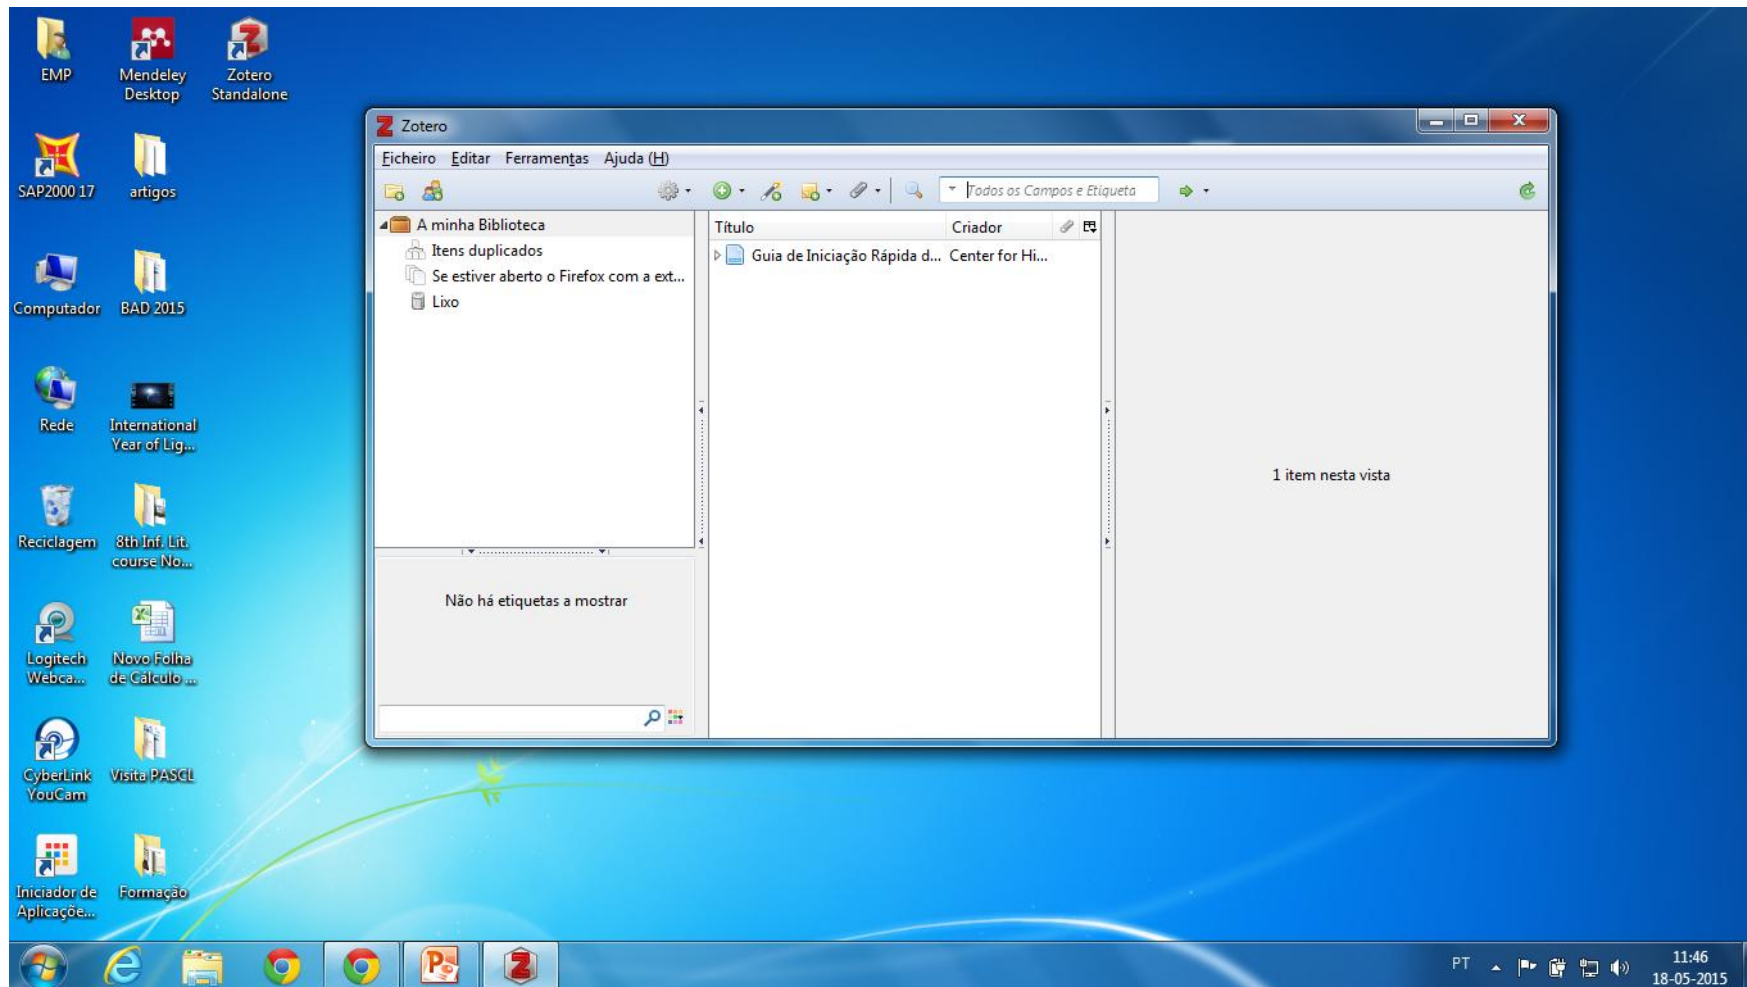

Launch Zotero now

< Back Finish Cancel

Not sure which version to choose? See the installation instructions

Zotero Standalone - Instalação

Zotero Standalone

Como o Zotero Standalone é independente do browser, existem certas definições avançadas que não funcionam.

Da mesma forma, uma vez que Zotero Standalone não tem acesso aos cookies armazenados no browser, às vezes não é capaz de importar automaticamente ficheiros de artigos quando estes estão acessíveis através de uma proxy.

Uma das características mais interessantes do Zotero é a sua capacidade para capturar metadados automaticamente a partir de sites.

Para o fazer o Zotero Standalone precisa de comunicar com o browser que estamos a utilizar, o que é feito através da instalação de conectores Zotero para Chrome, Safari, Opera ...

Superpower your browser with LibX and Zotero
Open source tools for research

Jason Puckett

Author Affiliations

Most of our powerful research tools now exist on the Web, but libraries shouldn't overlook the ability to add research features to the browser software itself. The extensible nature of the Firefox browser in particular makes it easy to install add-ons that help researchers at every stage of the research cycle, from search and discovery to writing and citation.

Two such add-ons are LibX, which enhances the search process, and Zotero, which eases saving, organizing, and citing sources. The LibX search toolbar can be customized to search your library's catalog and databases, insert library links into sites like Amazon and Wikipedia, and more. Zotero is a citation manager and bibliography creator that is as easy to use as iTunes. They run on any operating system that will run Firefox, and LibX will also work with Internet Explorer for Windows. Both plug-ins are free open source tools developed by universities for academic researchers.

Some of the benefits of choosing open source programs are obvious. Both programs are "free as in beer" (free of cost), so any library or user can download them without restriction. Unlike our licensed databases and software, researchers can continue to use these tools after they graduate or move away from college.

Saves references to Zotero from Chrome and Opera

Zotero is a free, easy-to-use, open source tool to help you collect, organize, cite, and share your research sources.

Zotero is the only research tool that automatically senses content and saves it your personal library with a single click. Whether you're searching for a preprint on arXiv.org, a journal article from JSTOR, a news story from the New York Times, or a book from your university library catalog, Zotero has you covered with support for thousands of sites.

The Zotero icon will appear in the address

Zotero - Tutoriais

The image displays two screenshots of the Zotero website. The left screenshot shows the 'Documentation' page with a 'Quick Links' section where 'Quick Start Guide' is highlighted with a red box. The right screenshot shows the 'Screencast Tutorials' page, which includes sections for 'Getting Started' (with 'ztour' and 'zdemo' video thumbnails) and 'Finding Items' (with 'Part One: Sorting', 'Part Two: Basic Search', and 'Part Three: Advanced Search' thumbnails).

Em Documentation > Quick Links , é possível localizar vídeos de ajuda à compreensão do programa e textos explicativos, referentes a cada uma das funcionalidades.

Os “Screencast tutorials” orientam-nos nas várias vertentes do programa.

Definir Preferências

No Zotero, no comando representado pela roda dentada podemos aceder às preferências do software e sincronizar o nosso zotero no firefox com o nosso perfil online.

Capturar/Importar uma referência

- É possível entrar num catálogo on-line de uma biblioteca e importar uma referência bibliográfica para o Zotero. É o caso da Biblioteca do Congresso, da British Library e de muitas outras.
- É igualmente possível guardar qualquer documento a partir de uma página web, de uma pesquisa realizada numa base de dados online, etc
- A informação a reter é “sentida” pelo Zotero através de “site translators” que, trabalham com vários catálogos de bibliotecas, websites, livrarias on-line como a Amazon, jornais e outros.

Capturar/Importar uma referência

- Actualmente quase todos os OPACs, ou seja, os catálogos online das Bibliotecas permitem importar referências para qualquer gestor bibliográfico através do comando “guardar registo” ou “exportar citação”
- É possível importar referências através do botão “**save to Zotero**”. Se der o comando “**Save to Zotero com captura**” o programa faz uma “**snapshot**” / “**fotografia**” da página

Capturar/Importar uma referência

The screenshot shows a web browser window displaying the Library of Congress Online Catalog search results. The browser's address bar shows the URL: <https://catalog.loc.gov/webv/search?searchType=7&searchId=19384&maxResultsPerPage=25&recCount=25&recPointer=21>. The page title is "LC Online Catalog - Titles ...". The browser's toolbar includes a folder icon highlighted with a red box. The page content shows the "LIBRARY OF CONGRESS ONLINE CATALOG" logo, a search bar, and a "Search Navigation" dropdown. Below the search bar, there are search results for "Titles List". The first result is by Bhaskar, Michael, titled "Curation : the power of selection in a world of excess / Micha...", published in 2016. The second result is by Crawford, John C., titled "Information literacy and lifelong learning : policy issues, the workplace, health and public libraries / John C. Crawford", published in 2013. A dialog box titled "Seleccionar Itens" is overlaid on the page, containing a list of items to be added to a library. The items are: "Curation : the power of selection in a world of excess / Micha...", "Information literacy and lifelong learning : policy issues, the ...", "Information literacy in the digital age : an evidence-based ap...", and "100% information literacy success / Gwenn Wilson, MA.". The dialog box has "Select All", "Deselect All", "OK", and "Cancelar" buttons. A small notification box at the bottom right says "Guardando em A minha Biblioteca...".

Uma pesquisa na Library of Congress sobre o assunto “information literacy” no campo subjects, dá-nos uma longa lista de resultados.

Se desejarmos guardar alguns títulos desta pesquisa bastará carregar no ícone da pasta no topo da página e abre-se uma janela com a lista de títulos permitindo-nos seleccionar os que desejamos guardar.

Capturar/Importar uma referência

The screenshot shows the Library of Congress Online Catalog interface. The browser's address bar is highlighted with a red box, containing the URL: <https://catalog.loc.gov/vwebv/holdingsInfo?searchId=19384&recCount=25&recPointer=0&bibId=19141130&searchType=7>. The page title is "LC Online Catalog - Item I...". The main content area displays the book record for "Curation : the power of selection in a world of excess" by Michael Bhaskar. The record includes the author's name, the main title, and the publisher information: "Published/Produced London : Platkus, 2016. ©2016". A red box also highlights the "Z" icon in the top right corner of the browser window.

Se estivermos directamente dentro do registo de um livro aparece o ícone de um livro azul e torna-se possível guardar o item isoladamente.

Ao guardá-lo capturamos a ref.^a e os metadados associados.

De seguida há que criar uma pasta para colocar o item no seu interior.

Capturar/Importar uma referência

Para guardar os itens de uma pesquisa efectuada no catálogo da British Library, ao “clique” no símbolo pasta, no topo da página, abre-se uma janela “pop-up” com o conjunto de títulos d lista de resultados e cujas referências a guardar, podemos seleccionar.

Após o que damos o OK! E as referências são importadas pelo Zotero

The screenshot displays the British Library website interface. At the top, it says "EXPLORE THE BRITISH LIBRARY" and "Search, view and order from our catalogues & collections". The search results page shows a list of items, with a "Selecionar Itens" (Select Items) dialog box overlaid. The dialog box contains the following text: "Seleccione os itens que deseja adicionar à sua biblioteca" (Select the items you want to add to your library). Below this, there is a list of search results with checkboxes for selection. The results listed in the dialog are:

- Kinetic energy storage : theory and practice of advanced flywheel systems / G. Ge...
- A review of regenerative braking systems.
- Final report for a dynamic study of fragmentation and energy loss during high vel...
- An estimation of turbulent kinetic energy and energy dissipation rate based on at...
- Atomic-scale modeling of the structure and dynamics of dislocations in complex ...
- Transport and mixing processes in stratified flow / Renato do Nascimento Siqueira.
- Spacecraft solar particle event (SPE) shielding : shielding effectiveness as a functio...
- Experimental and analytical evaluation of a composite honeycomb deployable en...
- JOVE annual progress report.
- Computational work to support FAP/SRW variable-speed power-turbine develop...

The dialog box also includes "Select All", "Deselect All", "OK", and "Cancel" buttons. The background shows the search results page with a list of items, including "Kinetic energy storage", "A review of regenerative braking systems", "Final report for a dynamic study of fragmentation and energy loss during high velocity impact", and "An estimation of turbulent kinetic energy and energy dissipation rate based on atmospheric boundary layer similarity theory".

Capturar referências de diversos tipos

É possível importar referências diretamente de sites como jornais, sites de partilha de fotos, como o Flickr, ou o Pixabay, do Youtube, etc.

Zotero: Importar 1 artigo

Ao importar a ref.^a de 1 artigo, capturamos a ref.^a, os respectivos metadados, uma imagem da página “HTML” e ainda o “PDF” a ela associado. Na coluna da direita vemos os dados e metadados associados ao artigo e à sua captura.

A janela do Zotero encontra-se dividida em três colunas. A coluna da esquerda “My Library”, é o local onde temos organizadas as nossas colecções de referências (cada colecção pode ter várias sub colecções e pastas em número ilimitado). Na coluna do centro são identificados os itens existentes dentro de cada pasta e na coluna da direita surgem-nos as informações referentes a cada item e a possibilidade de criar notas, anexar documentos, criar etiquetas e outras ...

Ao criar um grupo está a permitir a um conjunto de pessoas ver e usar os seus registos. É um bom meio de partilha entre membros de um grupo de investigação, entre colegas, entre alunos e professores, etc...

Torna-se possível, se definir o seu grupo como público, visualizar alguém que tenha referências e/ou artigos aos quais não conseguimos aceder.

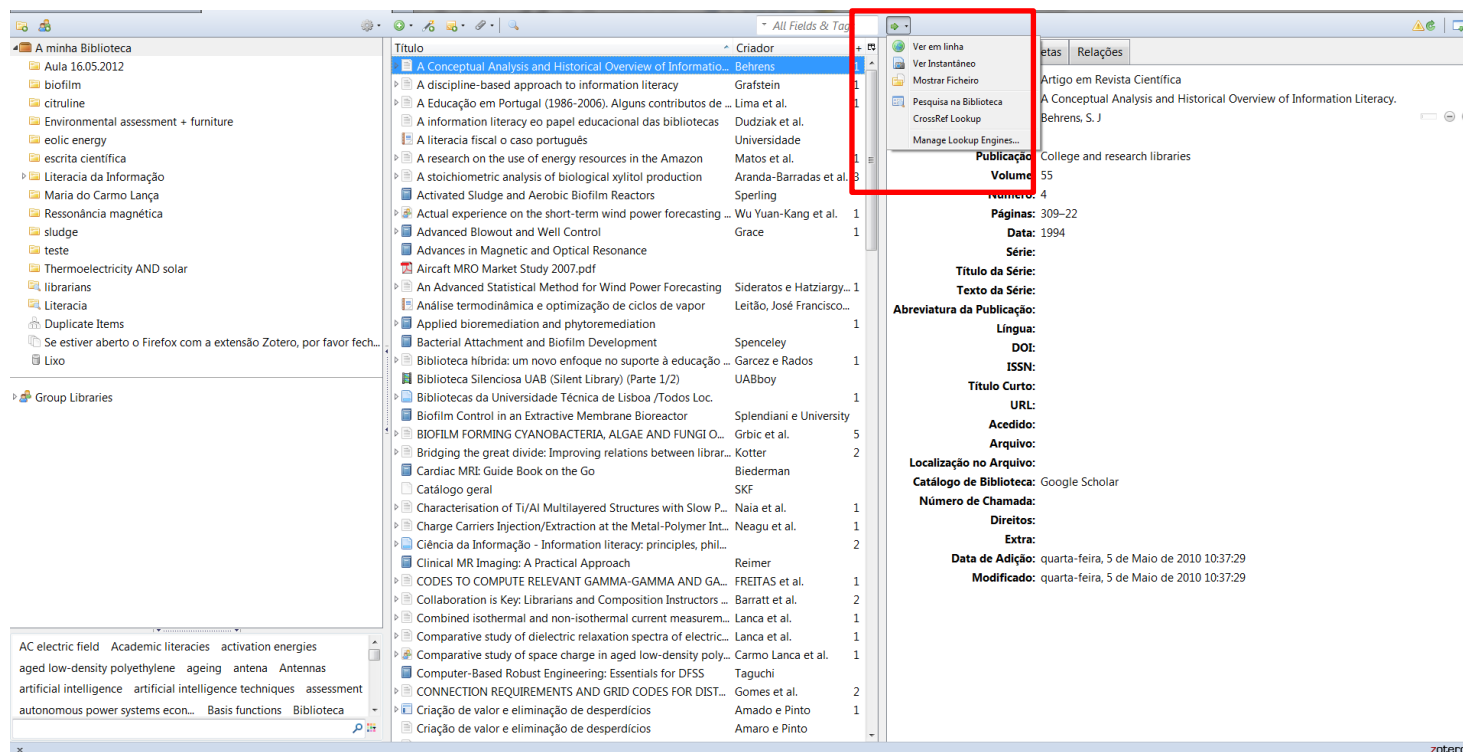

Pesquisa

The image shows a screenshot of a library website and a Zotero search interface. The website header includes the logo for 'BIBLIOTECA FCTUNL CAMPUS DE CAPARICA' and navigation links like 'Área de leitor', 'CLIP', 'B-On', 'RUN', 'FCT', 'Log in', 'Mailing List', and 'Como chegar'. Below the header is a photograph of a library interior with the word 'Notícias' overlaid. A search bar is visible with the text 'biblioteca' entered. The Zotero interface shows a list of search results with columns for 'Titulo' and 'Criador'. The search results include titles like 'A information literacy eo papel educacional das bibliotecas' and 'Applied bioremediation and phytoremediation'. A red box highlights the search bar in the Zotero interface.

Podemos pesquisar qualquer termo nesta caixa. O termo será pesquisado onde definirmos, pode ser em todos os campos de informação associados à nossa coleção e etiquetas, nos campos autor, título e data ou em tudo.

Localizar

Dentro das referências guardadas o “Locate” (Localizar) é um comando que, uma vez selecionado permite localizar o livro, artigo ou outro tipo de documento (de acordo com o tipo de referência que temos seleccionada), on-line.

Localizar

Nas preferências do botão “localizar” no Zotero existe a possibilidade de definir motores de busca para localização de artigos on-line. Já vêm pré-definidos alguns mas podemos acrescentar outros (da nossa preferência), é só entrar no site que queremos e adicioná-lo.

Pesquisar

The screenshot displays a web-based library search interface. A modal window titled "Procura Avançada" (Advanced Search) is open, allowing users to search across multiple fields. The search criteria are set to "Resumo" (Summary) and "contém" (contains), with the terms "literacy" and "library" entered. The dialog includes options for searching sub-folders and excluding top-level items, along with buttons for "Procurar" (Search), "Limpar" (Clear), and "Guardar a Procura" (Save Search).

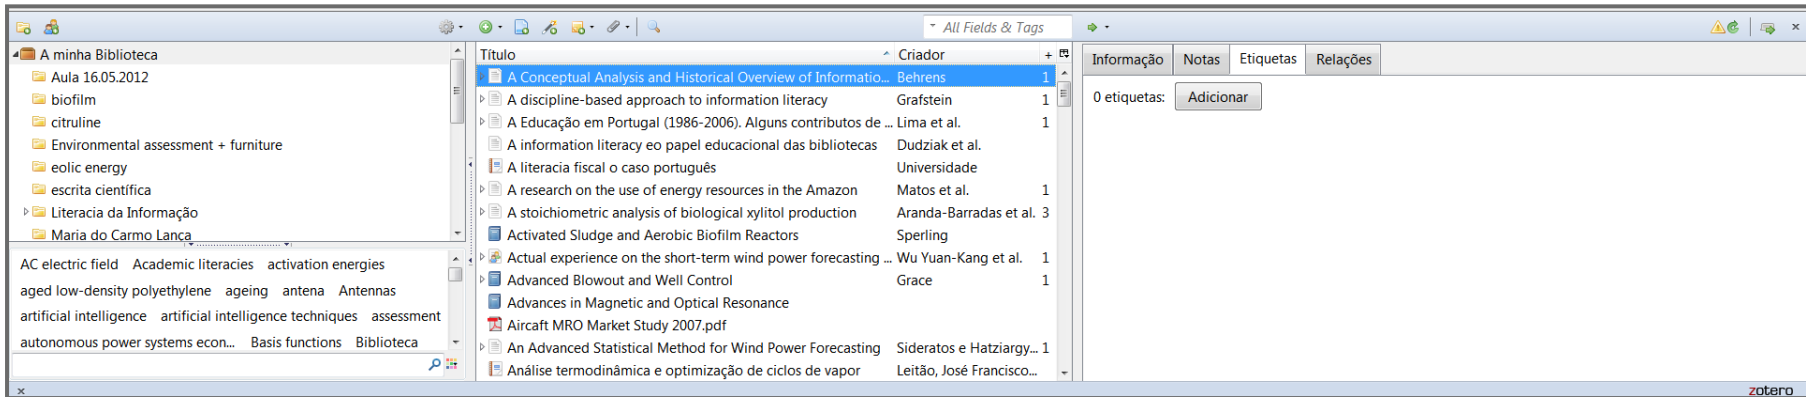

The search results are displayed in a table with columns for "Titulo" (Title) and "Criador" (Author). The results include:

Titulo	Criador
From Student to Scholar: The Academic Library and Social Sciences PhD Students' Transformation	Fleming-May e Yuro
Impact measures for libraries and information services	Poll e Payne
Information is social: information literacy in context	Hoyer J

The main interface shows a sidebar with a folder structure under "A minha Biblioteca" (My Library), including folders like "Aula 16.05.2012", "biofilm", "citrusline", "Environmental assessment + furniture", "eolic energy", "escrita científica", "Literacia da Informação", and "Maria do Carmo Lança". The main content area shows a list of search results with columns for "Titulo" and "Criador". A red circle highlights the search icon in the top navigation bar. The status bar at the bottom indicates "zotero".

Abre uma janela de pesquisa avançada, permitindo localizar itens de acordo com diversos critérios. É possível pesquisar em diversos campos e associar vários termos através dos operadores booleanos.

Etiquetas (Tags)

O comando “etiquetas” possibilita a atribuição de novas keywords , escolhidas por nós (para além das que se encontram associadas aos registos e que são capturadas no momento em que importamos a ref.^a) às referências guardadas no nosso Zotero.

Relações

Dentro de cada item há a possibilidade de cruzar referências e estabelecer relações entre diferentes documentos. Para tal seleccionamos “relações” na coluna da direita, “adicionar”, abre uma caixa de diálogo com as nossas colecções Zotero, escolhemos o item, damos o OK!

Assim:

The screenshot shows the Zotero application window. On the left is a sidebar with a tree view of the library structure, including folders like 'A minha Biblioteca', 'Aula 16.05.2012', 'biofilm', 'citrusline', 'Environmental assessment + furniture', 'eolic energy', 'escrita científica', 'Literacia da Informação', and 'Maria do Carmo Lança'. The main pane displays a list of items with columns for 'Título', 'Criador', and a count. The 'Relações' tab is active, showing '0 relações:' and an 'Adicionar' button.

zotero

Integração com processadores de texto

The screenshot shows the Zotero website's support page for word processor integration. The page title is "word processor integration" and it includes a search bar and navigation links. The main content area is titled "Word Processor Plugins" and contains the following text:

Of the different ways to automatically **generate bibliographies** (as well as in-text citations and footnotes), the easy-to-use word processor plugins are probably the most flexible. These plugins, available for Microsoft Word and OpenOffice/NeoOffice, create dynamic bibliographies: insert a new in-text citation in your manuscript, and the bibliography will be automatically updated to include the cited item. Correct the title of an item in your Zotero library and with a click of a button the change will be incorporated in your texts.

To get started with these plugins, check out the following links. You can also get a taste of how these plugins work in action by watching screencasts of [Zotero and Word](#) or of [Zotero and OpenOffice](#) (by Daniel de Byl). Note that not all versions of Word and OpenOffice/NeoOffice are supported. It is therefore recommended that you take a look at the [word processor compatibility table](#) to check whether your word processor is currently supported.

Further Documentation

- [Installation](#)
- [Usage Guide](#)
- [Troubleshooting](#)

Zotero Word Screencast

Zotero Word Plugin

The screenshot also shows a video player with a thumbnail of a document titled "My Shakespeare Paper" and a list of paragraphs.

Para interagir com o Word ou outro processador de texto o Zotero instala um plugin (executável) no nosso computador.

Integração com processadores de texto

The screenshot shows the Zotero website's documentation page for installing word processor plugins. The page title is "Installing Word Processor Plugins for Zotero 2.1/3.0 for Firefox". The page content includes a table of contents, a list of translations, and instructions for installing plugins for Microsoft Word, Windows, Mac, and LibreOffice/OpenOffice.org & NeoOffice. A red box highlights the instruction to install the "Word for Windows Plugin 3.1.7" (Firefox extension). The page also features a search bar, a "Log In - Register" link, and an "Upgrade Storage" button.

Installing Word Processor Plugins for Zotero 2.1/3.0 for Firefox

This page provides [word_processor_plugins](#) for users of Zotero 3.0 for Firefox. These plugins may also work with Zotero 2.1, although this functionality is untested. Word processor plugins for Zotero Standalone can be installed from the Cite pane of the Zotero preferences. For plugins for other versions of Zotero for Firefox, see the [appropriate page](#). Users of Firefox beta releases should see the [Firefox beta compatibility](#) page.

The word processor plugins are distributed as Firefox extensions, which provide integration support to Zotero and install the necessary components into the word processors. After you have installed a plugin from this page, Firefox will prompt you to install later versions automatically the same way that it does for the Zotero Firefox extension.

Microsoft Word

Windows

The latest version of the Word for Windows plugin for Zotero 3.0 is **3.1.7** (compatible with Word 2000 or newer, including 64-bit versions, and Firefox 3.6-12). **Word 2010 Starter Edition is not supported.**

- Install [Word for Windows Plugin 3.1.7](#) (Firefox extension)

Mac

The latest version of the Mac Word plugin for Zotero 3.0 is **3.5.4** (compatible with Word 2004, 2008, and 2011, Mac OS X 10.5 Leopard or later, including Lion, and Firefox 4-13). **This release requires Firefox 4 or later** but does not require PythonExt. Firefox 3.6 users should download the [Word for Mac Plugin version 3.1.10](#).

- Install [Word for Mac Plugin 3.5.4](#) (Firefox extension)

Word 2008 users: Zotero functionality is located under the Word script menu. See [here](#) for more details.

LibreOffice, OpenOffice.org & NeoOffice

The latest version of the LibreOffice plugin for Zotero 3.0 is **3.5.3**
