- > RSS Readers
- > Actividade prática
 - > Configuração do Google Reader
 - > Subscrição de feeds de 1) journals, 2) blogs, 3) google alerts, 4) vídeos do youtube, 5) pesquisas em repositórios e sua organização em pastas
 - > Configuração do Feedly

Os  RSS feeds são um protocolo web que permite difundir de forma automatizada sumários de actualizações de sites de vários tipos, tais como jornais, blogues, repositórios, revistas académicas, etc..

Os RSS readers são aplicações que permitem organizar diferentes subscrições de RSS feeds numa só página web
